

I urge you to take action against Sinclair Broadcasting for demanding their affiliates air a blatantly political documentary regarding Kerry's Vietnam war record and labeling it news in order to avoid giving equal air time to the Kerry campaign to rebut the issue. This gives another black eye to the media industry and the FCC, for allowing this type of illegal activity to occur with you implicit approval. Sinclair affiliates will pay the price when lawsuits are filed and legal fees start to mount. This issue is not going away. We look to you to remedy the situation immediately.
